

2023 Poster Contest Winner

11 TO 13 YEAR OLDS

When **Raya Tabassum Saptorshi** isn't playing piano or writing sci-fi stories, she often can be found drawing, sketching, or making fabric paintings, artistic skills that came in handy when she created a winning submission for the Caltrans Safety Poster contest. Raya is an enthusiastic twelve-year-old seventh grade student who particularly enjoys studying math, anime, and music at Granite Ridge Intermediate School. The daughter of Mohammad Rana, a Transportation Engineer Tech in District 6, Raya says the contest's theme is important because "It's important to keep our Caltrans families, and those who drive, safe" and adds hopefully, "A little awareness makes a big difference."
